

ONE DISPLAY BOARD, THREE RAINY DAY PROJECTS

APRIL SHOWERS BRING A CHANCE FOR INDOOR FAMILY FUN.

Start with everyone's favorite science-fair staple, get busy with crafty tools and accessories, and see what unfolds.

1 BEANBAG TOSS

Cut 3-5 holes in the center board, then decide on a theme. Decorate the holes to be fish in the sea, flowers in a garden, the wide mouths of cartoon characters, and more. Adhesive numbers can mark the point values on each slot while you can use the side panels to write the high-scorers' names in Sharpie, Wall of Fame-style.

2 PUPPET THEATER

Cut a window in the center and decorate with curtains made from construction paper or fabric scraps. Use glitter glue, markers, or adhesive letters to display theater name, show times, and starring cast.

3 PORTABLE PLAY MAT

Do they want a jungle scene for dinosaurs, winding streetscapes for toy cars, or an enchanted meadow for ponies and princesses? Sketch out their vision using permanent markers and help them bring it to life with crayons, glue sticks, and construction paper.
